FABRIC CARE

CHENILLE CARE

For best results dry clean or handwash, lie flat to almost dry then "fluff up" briefly in a low-heat gentle dryer. You can also machine wash but on gentle in a front loading washer placed in a mesh bag. Dry as above.

COTTON TABLELINENS

All of our products have been pre-washed. Colors may run a bit when you first wash them but should not discolor the product. Therefore wash separately the first time. If you ever do have a problem with staining on the product please let us know asap. Machine wash on cold. It is possible to put the linens in the dryer but they will shrink a bit. The tablecloths, if removed while warm, do not wrinkle. For best results hang to dry on a firm pole. Smooth out the wrinkles and you should not need to iron. These pieces hold their color for years.
